

About MN Soap Company

MN Soap Company has partnered with a small, family-owned soap-maker located in Dunn, North Carolina. We have been using the products in our own home and absolutely love the results! Not only can you be assured the soaps use only all natural, safe ingredients, but they also smell amazing while leaving your skin feeling soft and clean.

We also hold the same values as the soap-maker in that we believe in following ethical, sustainable, planet-conscious business practices, including being vegan and using only GMO free ingredients, and unlike liquid soaps, have no plastic waste.

As a result, we have decided to share our experience by offering these products locally to residents in our hometown area of Minneapolis, Minnesota and to those who find us on our website.

What makes us different?

We understand alternative personal care products are increasing in demand and popularity as consciousness grows around the impacts of potentially harmful ingredients on our health and the environment. We have responded by offering a superior, all natural product made in small batches with precision and care that makes a great gift for any occasion. It also makes for a nice give-away option at larger special events such as weddings, showers or recognition ceremonies.

We take pride in knowing that our products are made from the highest quality ingredients, and use eco-friendly packaging which include recycled materials and no plastic waste. Even the brochures we provide to our fundraising partners are printed on 100% recycled material and are made using wind power.

About our products

Ingredients philosophy

Our handmade soaps contain absolutely no genetically modified oils (GMOs). You can buy with confidence knowing you are not supporting the engineered food industry. Soap makers that use conventional soybean oil and/or corn oil are not only using inferior oils, but are also supporting an industry that genetically modifies products, thus promoting the use of toxic herbicides and may be putting small farmers out of business.

All soaps are vegan and we add no parabens, sodium lauryl sulfate (or similar), unnatural preservatives, or petroleum products to our soaps.

Our soap collection includes

- Activated Charcoal
- Activated Charcoal with Peppermint Tea Tree
- Aloe Calendula
- Essential Blend Pumice
- Eucalyptus Lemon
- Fresh Ginger Lemongrass
- Fresh Ginger Lime Aloe
- Himalayan Salt Soap
- Lavender Purple
- Nature's Rose
- Orange Vanilla
- Patchouli Vanilla Hemp
- Refreshing Mint Scrub
- Tea Tree Herb and Mint Hair, Body & Beard Soap
- Ylang Ylang Orange

What we offer to your program

Convenience

We know you and your students are busy, yet fundraising is an important part of your program. With this understanding our goal is to keep it simple for you, the student, and the customer.

Through our program the students have multiple options as to how to sell the products and we provide the tools to make it easy, including:

- Product brochure
- Electronic brochure available to email
- Information cards for distribution
- Optional sample packs for purchase through our website for in-person sales
- Online ordering through our website

Flexibility

You set your fundraising dates and earn unlimited income based on your profit tier (see below). Please contact us directly to discuss other arrangements or accommodations.

Earning potential
